TILEMAX

Premium Design

Built on Elegance. Designed to Last.

Crafting timeless spaces with premium tiles
that reflect luxury, quality, and perfection in
every detail.

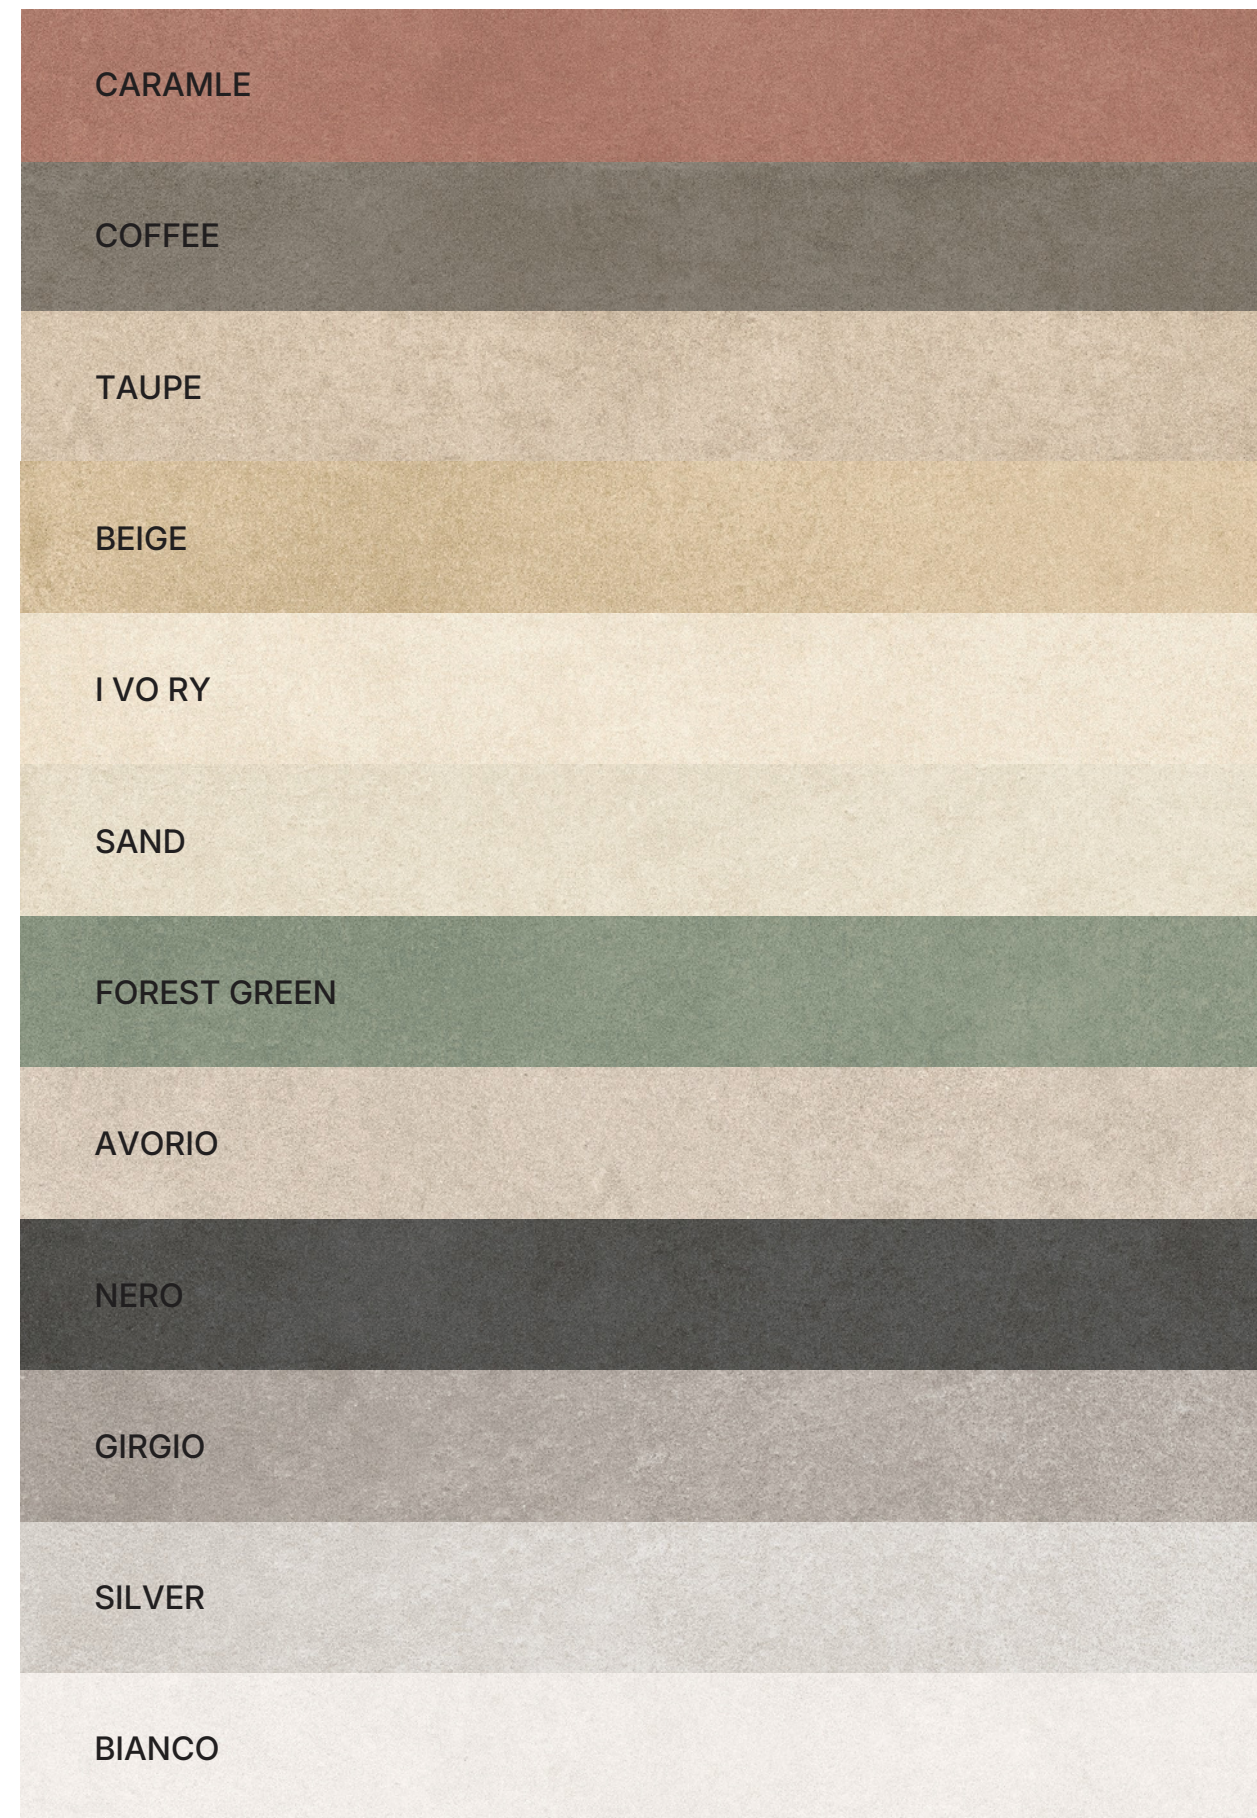

Where Every Tile Tells a Story of Luxury

CHROMATIC EXPRESSIONS OF NATURE.

Materia is versatile and resistant, making it one of the most used materials in construction and in the creation of modern and elegant surface. With Materia we have created a transversal line in which the one finishes, Natural can be combined with each other or exist separately. The first is composed of several elements, is less pure, more material. Resin, on the other hand, has more modern characteristics because it is homogeneous and with a more uniform color. The decorative Handmade structure, available in the different colors of the bases, completes the collection.

[CLICK TO EXPLORE EACH COLOUR](#)

12 COLOURS

4 SURFACES

A palette of twelve natural tones, interpreted across four distinct surfaces. Materia transforms earthy hues and subtle textures into a modern design language — offering surfaces that respond to light, define space, and bring a sense of composure to architectural environments.

COLOUR HARMONY MEETS SURFACE EXPRESSION

Across four textures, each shade adapts to different lighting and design needs: Natural for matte clarity, Handmade for crafted lines, Velis for soft organic depth, and Troika for strong cracked relief. This framework supports subtle continuity or bold focal applications.
